

Acknowledgment of Pre-season Meeting Expectations

Having been to the spring sports clearance meeting (or having watched the recording of it), I understand and will abide by all WIAA regulations, WVHS athletic policies, and the WV track and field athletic code, included but not restricted to the following:

- My athlete will regularly attend scheduled practice all practices. In the event of illness, school-initiated absence, or absence from all or part of the school day, a member of the coaching staff will be contacted prior to practice.
- My athlete will be at every home meet, for the duration of the meet, whether as a competitor or as a helper.
- If my athlete participates in other athletic activities during track season, I will limit the number of missed track meets to two (2) for the season and I will submit the dates of those missed meets by March 8th to the coaching staff.
- If my athlete participates in other athletic activities during track season and my athlete qualifies for post-season track and field competition, all participation in other sports will cease until the athlete has been eliminated from further competition.
- If my athlete is unavailable during spring break to help at the track camp, I will provide a note to the coaching staff prior to spring break.
- I understand that the order of contact in the event that I have an issue that I feel needs to be discussed.
- I will join the WV coaching staff in encouraging my athlete to work hard, fight through the hard times, and be a better athlete and person by the end of the season.
- I will be an enthusiastic supporter of Ram Track and Field because there is not better way for a kid to spend his/her after school time in the spring.
