Dear Participant and Parent:

Welcome to West Valley School District Athletics. We hope our student athletes will benefit from their experiences while involved in athletics/activities during their time in the West Valley School District. To ensure this, you will want to review this handbook and spend time discussing it together. Because your awareness of the contents of this handbook are very important, you will be required to sign the West Valley Athletic Information/Clearance Form, acknowledging that you are aware of/will abide with the rules and regulations contained within, both for participants and parents/fans. Please return the form to the coach, advisor, or building activity/athletic director before the start of practices for that activity.

We also ask that students and parents pay particular attention to the section regarding the Code of Conduct. The West Valley community and the West Valley School District have consistently supported a very high standard of acceptable student and parent/fan behavior. Within this handbook, you will find a list of activities that are covered by these regulations.

By participating in the co-curricular program, your son/daughter will be subject to the athletic/activities code of conduct for the entire calendar year. Students involved in code violations will be subject to sanctions during this period. Please take the time to read and understand this section and to discuss it with our son/daughter. We take great pride in the fact that the West Valley School District abides by and in some instance exceeds (where applicable) the rules, policies, and procedures of the Washington Interscholastic Activities Association (WIAA).

You should also be aware that coaches/advisors are authorized to decide which students are selected to the team(s) and which students are to participate in each contest. Although we have developed an extensive program to provide the most participation possible, it is a co-curricular program and there is no guarantee that a student athlete will participate in every contest.

We hope you and your son/daughter have an enjoyable and rewarding experience participating in West Valley School District athletics/ activities. Best wishes for a fine year to all participants in the Panther and/or Ram families!

WVSD PAY-TO-PARTICIPATE - ADMINISTRATIVE GUIDELINES (Amended Summer 2016)

As a result of the increasing cost of operating the WVSD Athletic Program, a pay-to-participate and a facility use fee for athletics and activities are in effect in accordance with the following guidelines:

PROGRAM MANAGEMENT

The athletic and activities programs will be managed by the West Valley School District administration. In athletics where a selection process is used (e.g. basketball, baseball), the fee will not be collected until the squad(s) has/have been determined. In these cases, payment needs to be made on after the squad is announced and before the opening contest. If an athletic team or activity does not have a squad selection process (e.g. football), the fee should be paid before the opening contest. Contact your building athletic director if the need for a variance/payment plan is necessary.

PROGRAM CONTENT/ MINIMUM PARTICIPATION THRESHOLD

Program content will be determined by the West Valley School District administration. The administration reserves the right and has the responsibility to evaluate each program based on the following criteria:

- The minimum number of participants needed to make the program cost effective.
- Whether the program/activity has appropriate sponsorship.
- Whether facilities are available to accommodate program need.

The administration will cancel any sport or activity that does not have the prerequisite number of participants for cost effectiveness. The administration will set the minimum threshold for each sport.

COLLECTION OF FEES

All fees for the High School (*grades 9-12*) will be collected by the *HS or Freshman Campus Main Office during regular business hours (7:30 am-2:35 pm)*. Junior High School fees will be collected at the *JH Main Office*.

REFUNDS

Refunds will **not** be made for any reason including dropping out, being discharged from the team by the coach, academic ineligibility, or transferring. The only exception is if a student has participated in less than 50% of the season or year, and is given a doctor's release stating that he/she cannot finish the season.

FEE SCHEDULE

9th Grade through 12th Grade - The participation fee for each sport will be \$75.

7th and 8th Grade – There is no pay-to-participate fee at the Junior High level.

Low Income Rate: Assistance may be available through parent support groups for the various activities. Students and parents are encouraged to talk to their respective Athletic Director/Counselors for specific options with support groups.

Payment of the participation fee in no way guarantees that the student will participate in every athletic contest, nor does payment imply control over any conditions of a team or activity.

School Attendance Regulations

Participation – All day school attendance for practice and contest days is mandatory. Full day school attendance is required the day following a contest *(see Travel Rules). Participant must obtain special administrative approval for special needs/circumstances to waive this requirement by phoning the school and discussing the problem with the athletic director or principal IN ADVANCE. If approval has not been given in advance, the student must present a doctor's or dentist's note to the principal, AD, or designee immediately upon returning to school in order to be eligible to participate in that day's school activities. Irregular school and/or practice attendance is cause for suspension from the team.

Attendance –

1. Unexcused School/Practice/Contest Absences:

- a. First Offense-miss next contest
- b. Second Offense-miss next 2 contests
- c. Third Offense-off team

2. To compete, an athlete must attend school on the day of the activity. Approved shortened schedules for seniors, doctor or dentist appointments or funerals shall serve as exceptions, when pre-approved.

3. Athletes who report to school late the day of or following an athletic contest (see exception on page 4) will not practice or play on that day unless cleared by the principal, AD, or designee.

4. In the event a student-athlete is inadvertently allowed to participate after an attendance violation, the student will forfeit participation on the next appropriate occasion.

5. An athlete who is suspended from school may not participate in practice or play during the period of suspension. This period is defined as from the close of school on the day of suspension to the end of the school day upon completion of the suspension.

Dressing Room Procedures

1. Keep assigned lockers locked and clean
2. “Rough-housing”, “hazing”, or “horse-play” of any sort is dangerous and will not be permitted.
3. SHOWERS – Coaches are to instruct athletes that they should shower after each game turnout as a health and training practice.

Equipment

School equipment checked out by the student is the student’s responsibility. The student is expected to keep it clean and in good condition. Students attending commercial camps or clinics during summer must provide their own equipment and uniforms.

Travel Rules for Activities

The following rules will be enforced whenever it is necessary to travel to other schools for contests or to alternate off-campus turnout/game sites:

1. All students must travel to and from contests in which transportation is provided by the school district, except that a student may travel:
 - a. With their own parent, if the parent arranges with the coach/advisor, to transport his/her son/daughter in their own vehicle (sign the release form with the coach after the event).
 - b. In a private vehicle with a non-parental adult, (1) if the parent fills out the West Valley School District Non-Parental Transportation Request Form request and submits it to the principal or designee prior to departure and the principal/designee gives approval to the coach/advisor in charge.
2. Participants will remain with their squad and under the supervision of their coach/advisor when attending any contests.
3. Misconduct of any sort while traveling to and from an away contest will be dealt with according to “Conduct and Control for Participants” as outlined in the handbook.
4. Full day school attendance is required the day following a contest. With the approval of the principal or designee, students will be required to be in attendance at their respective schools eight (8) hours after their athletic/activities bus arrives back at West Valley High School after 12:00 midnight.

Visiting participants are direct representatives of their school, community and homes and should conduct themselves accordingly.

Conduct and Control for Participants

In order to accomplish the goals set forth, it is necessary to develop and maintain a team spirit that is based on appropriate standards. Certain regulations are necessary to prevent disruption of team spirit that could detract from the competition and cooperation values provided by activities.

School Programs should reflect the attitude of the community that pays for them and, it appropriate benefits are to be derived from the athletic program; it must be able to operate in a climate devoid of

disruptive influence. If the community is to truly identify with its schools through the activity medium, it is imperative that team members conduct themselves in a manner that will inspire pride and approval.

All students who participate in the activities program of the West Valley School District will comply with the rules and regulations and will submit to the reasonable discipline of the school authorities. Any student having registered and/or participated in the activities program is subject to the participant conduct and control for student from the first participation until graduation from senior high school.

Any student participant who willfully performs an act, which materially interferes with or is detrimental to the orderly operation of a school's educational and activities program will be subject to discipline, probation, suspension or expulsion as described below.

The following acts by a student participant will constitute sufficient cause for discipline, probation, suspension or expulsion: the commission of any criminal act as defined by law or any behaviors defined as exceptional misconduct. This includes, but not limited to: disruptive conduct; disobedience of reasonable instructions of school authorities; refusal to identify oneself; unauthorized absence from turnout or game; cheating; immoral conduct; vulgarity or profanity; destruction or defacing of property; extortion; intimidation or harassment (including racial/gender) of another student or employee; assault of another student or employee; stealing; possession or use of any dangerous weapons or objects and; use, sale or possession of tobacco; use, sale or possession of alcoholic beverages; use, sale or possession or drugs and/or related paraphernalia. Possession includes both physical and constructive possession.

Student participants suspended or expelled from school must be reinstated to activity participation when reinstated to school, if the act is not related to activity standards. Also, if a student is suspended from school, the student is on probation/suspended from activities and even though back in school pending appeal, the student is still subject to activity discipline.

NOTE: Sanctions will carry over from ninth grade to senior high school, from seventh grade to eighth grade; seventh and eighth grade will not carry over to senior high school.

In no instance shall participation in a school and/or community approved assistance program excuse a student athlete from subsequent compliance with this regulation. However, successful utilization of such an opportunity or compliance with athletic code by the student athlete may allow him/her to have eligibility re-instated in that athletic season, pending recommendation by the school eligibility authority.

2nd Violation - A participant who again violates any provision of RCW 69.41.020 through 69.41.050 or of RCW 69.50 shall be ineligible for interscholastic competition for a period of one (1) calendar year from the date of the second violation.

Participant Warning

By its very nature, competitive athletes may put your son/daughter in situations where serious, catastrophic and perhaps fatal accidents may occur. Many forms of athletic competitions result in severe physical contact among participants. The use of equipment which may result in accidents, strenuous exertion, and other exposure to risk of injury are inherent in athletics. Students and parent/guardians must assess the risk involved in such participation and make their choice to participate in spite of those inherent risks. No amount of instruction, precautions, or supervision will totally eliminate total risk of injury. The obligation of parents and students in making this choice to participate cannot be overstated. There have been accidents resulting in death, paraplegia, quadriplegia, and other serious permanent physical impairments as a result of athletic participation. Participants will be instructed to proper techniques to be used in athletic competition and in the proper utilization of all equipment worn or used in practice and/or competition. Students must adhere to the instruction and utilization and must refrain from improper uses and techniques. The district would like to inform all athletes and their parents that there is a small risk of infection from blood-borne pathogens during practices and competition. If any of the above is not completely understood, please contact your school principal for further information.

However, the following guidelines are presented to ensure a clear understanding of some behaviors which are unacceptable.

1. Talk directly to the coach. Parents are to arrange a time outside of the following: before, during, or after a practice or game.

The employee shall have the right to be represented by the Association at any meetings or conferences regarding such complaint.
2. In the event the complaint cannot be resolved to the satisfaction of the employee informally, the grievance procedure up to, but not including binding arbitration.

Coaches Code of Ethics

The function of a coach is to properly educate students through participation in interscholastic competition. The interscholastic program is designed to enhance academic achievement and shall never interfere with opportunities for academic success. The coach shall treat students in a fair and equal manner. Each child shall be treated as though they were the coaches' own and their welfare shall be uppermost at all times.

The coach must be aware that he or she has a tremendous influence, either good or bad, in the education of the student athlete and thus, shall never place the value of winning above the value of instilling the highest desirable ideals of character.

The coach must constantly uphold the honor and dignity of the profession. In all personal contact with the student athlete, officials, Athletic/Activity Directors, school administrators, the WIAA, the media and the public, the coach shall strive to set an example of the highest ethical and moral conduct.

The coach shall take an active role in the prevention of drug, alcohol and tobacco abuse and under no circumstances shall authorize their use, either by student athletes or other members of the coaching staff.

The coach shall promote the entire interscholastic program of the school and direct his/her program in harmony with the total school program.

The coach shall be thoroughly acquainted with the contest rules and is responsible for their interpretation to team members. The spirit and letter of rules shall be regarded as mutual agreements. The coach shall not try to seek an advantage by circumvention of the spirit or letter of the rules.

The coach shall actively use his or her influence to enhance sportsmanship by their spectators, working closely with cheerleaders, pep club sponsors, booster clubs, and administrators.

Contest officials shall have the respect and support of the coach. The coach shall not indulge in conduct, which will incite players or spectators against the officials. Public criticism of officials or players is unethical. Before and after contests, rival coaches shall meet and exchange friendly greetings to set the correct tone for the event.

A coach shall not exert pressure on faculty members to give student athletes special consideration. When supervising participants, a coach/advisor must receive clearance from the building principal and/or designee before relinquishing their supervisory duties for that activity. Direct supervision of participants terminates when they have been released to the legal parent/guardian via the WVSD approved form (if not utilizing district transportation).

Drug and alcohol use by coaches; it is the West Valley School Districts policy to provide drug free, healthful, and safe workplace. To promote this goal, employees are required to report to work in appropriate mental and physical condition to perform their jobs in a satisfactory manner.

While on WVSD premises or while conducting district-related activities of the WVSD, no employee may use, possess, distribute, sell, or be under the influence of alcohol, tobacco, or other drugs. The legal use of prescription drugs is permitted on the job only if it does not impair an employee's ability to perform the essential functions of the job effectively and in a safe manner that does not endanger other individuals in the workplace. Violations of this policy will lead to corrective action, up to and including immediate termination of employment, or required participation in a substance abuse rehabilitation or treatment program and/or suspension/loss of pay. Such violations may also have legal consequences.

WIAA Rules for Athletics and Activities: Important Out-of-Season, Practice, Recruiting, Eligibility, Residency, School Membership, Academic Requirements

OUT OF SEASON – DEFINITION – Out- of- season is that time during which paid or volunteer coaches can not coach present or future squad members.

HIGH SCHOOL - Out-of-season for all high school sports shall be from August 1st (beginning in 2007) until the first day of fall sports turnouts and from the finals day of the state tournament for that sport until the conclusion of the final spring sport state tournament

MIDDLE LEVEL – Out-of-season for all school sports shall be from August 1 until the first day of the specific sport turnouts and from the final day of the league competition for that sport until the conclusion of the final spring sport league competition.

For the purposes of the out-of-season regulations, the WIAA has determined that slow pitch and fast pitch softball shall be considered separate and distinct sports. In addition, high school interscholastic wrestling, freestyle wrestling, and Greco-Roman wrestling shall be considered separate and distinct sports.

School sponsorship or promotion of practice and/or participation in a given sport contest is restricted to the WIAA designated season for that sport.

PROMOTION - Definition - Promotion is defined as providing, posting or distributing information pertaining to a specific event or activity and/or encouraging student athletes to participate in the event or activity.

Practice shall be limited to each sports season as defined under each sport.

Use of school equipment, facilities and/or transportation is contingent upon local school district written policy.

- A. School uniforms may be worn **ONLY** during the WIAA season for that sport **except during Washington State Coaches Association feeder or all state contests**. NOTE: Uniforms are considered to be the school issued contest uniform (practice or shooting shirts are not classified as school uniforms) and are defined in the adopted rule book for each specific sport.
- B. Coaches may not transport current and/or prospective athletes to an out-of-season event in their particular sport.

A coach of a school team (paid or volunteer) may conduct practice only during the WIAA sport season.

A practice is defined as any attempt by the coach of a school team (paid or volunteer) to teach any phase of a game or activity to their squad or have their squad or part of their squad engage in drills under the supervision of that coach, or from directions provided by that coach.

A coach may have one (1) meeting with the squad prior to the opening day of practice to issue equipment and to explain to the participants such issues as insurance, physical examinations, season's plans, training regulations and any other pertinent information deemed necessary by the coach. This restriction does not apply to fundraising activities unless the fundraising activities include skills that are specific to the sport being coached. Fundraising activities are subject to the approval and rules of the participating school districts and/or Association Student Body governments.

In the sport coached, a school coach may not sponsor, coach or direct activities which resemble out-of-season practices or contests to any of their squad members, past or future squad members (high schools and feeder schools in the school district) except during the designated season for that sport until after the final spring WIAA tournament is completed (high school) or until after the completion of the final spring sports season (middle level.) A feeder school may be either grades 7 and 8 or grades 7, 8 and 9.

A manager of a team is limited to preparing water/drinks and providing supplies to the coach and/or players. Managers are not allowed to participate in any warm-up or practice drills in the same role as the athletes.

SQUAD MEMBERS AS VOLUNTEER COACHES – High school players may serve as middle level assistant coaches/volunteers during the designated middle school season.

A member school may organize and supervise a year-around conditioning program to include weight training, running and exercising provided it is open to all students and does not include instruction in specific sport skills.

OPEN GYM - Schools may conduct open athletic facilities (gym, pools, field, and track) in the off season if all of the following conditions are met:

- A. The program is part of the school district organized recreational or activity program; and
- B. Activities are open and advertised to all members of the student body; and
- C. Students have a choice of activities; and
- D. No coaching or drilling of the athletes attending occurs; and
- E. Supervision is provided by any individual approved by the school district.

SPECIALIZED SPORT CAMPS – Participants in a school-sponsored sport may attend camps or clinics at any time during the school year or during the summer. However, a fall participant in a school-sponsored sport cannot attend any camps or clinics in that sport three (3) weeks prior to the first day of turnouts for that sport if the participants coach is a clinician/organizer of that camp or clinic.

PHILOSOPHY OF SUMMER ACTIVITIES: *Students may be afforded the opportunity to participate in activities during the summer if they so choose. Students should also be provided with an opportunity to participate with their families during the summer or simply take a break from sports prior to the start*

of fall sports turnouts. Limiting participation during the month of August for fall sports athletes helps to ensure that all students begin the fall sports season on an equal basis.

SUMMER ACTIVITIES - For high schools summer is defined as the first day following the WIAA spring tournaments until three (3) weeks prior to the start of fall turnouts for fall sports coaches and as the first day following the WIAA spring tournaments until the first day of the fall turnouts for winter and spring sports coaches. For middle level schools summer is defined as the first day following the final day of the spring sports schedules until three (3) weeks prior to the start of fall turnouts for fall sports coaches and as the first day following the final day of the spring sports schedules until the first day of the fall turnouts for winter and spring sports coaches.

Coaches may conduct activities during the summer on their own, as individuals.

School districts may authorize the use of school equipment, facilities, and/or transportation for individuals and/or teams during the summer if approved by the local school board.

This rule allows:

1. Schools to provide facilities, sport specific apparatus (such as batting cages, football sleds, nets, etc), school equipment (such as football helmets and shoulder pads, balls, etc) to be used during the summer if approved by the local school board.
2. Schools to authorize school district vehicles to be used to transport individuals and/or teams to summer camps or clinics if approved by the local school board.
3. School districts to provide liability insurance to cover summer programs.
4. This rule does not allow for the use of school uniform during the summer

PRACTICE REGULATIONS – School sponsorship or promotion of practice and/or participation in a given sport contest must be restricted to the WIAA designated season for that sport. Several practice regulations that apply to all sports during the school year are as follows:

PROMOTION – Definition – Promotion is defined as providing, posting, or distributing information pertaining to a specific event or activity and/or encouraging student athletes to participate in the event or activity.

Practice shall be limited to each sports season as defined under each sport. Practices in one (1) sport cannot be transferred toward the number of practices required in another sport.

A coach of a school team (paid or volunteer) may conduct practice only during the WIAA sport season.

For the purpose of meeting the pre-contest practice requirements, practice is defined as a regularly scheduled team physical activity designed for the preparation of athletes for the ensuing sports season and must be conducted under the supervision of the school coach. Participation in physical education classes does not constitute a practice. A practice is further defined as any attempt by the coach of a school team (paid or volunteer) to teach any phase of a game or activity to their squad or have their squad or part of their squad engage in drills under the supervision of that coach, or from directions provided by that coach.

One (1) day is equal to one (1) practice for purposes of meeting the minimum practice requirements.

Practice days are considered to be Monday through Friday, with Saturday being an allowable practice day. Sunday may not be counted toward meeting the minimum practice requirements

Practice on a game day shall not allow an athlete to become eligible for competition on that day.

Participation in pre-contest warm-up exercises shall not count as a required practice.

PHILOSOPHY OF RECRUITING: Students who demonstrate special skills and talents in any of the activities under the jurisdiction of the Washington Interscholastic Activities Association should not be subjected to pressures to enroll in a member school outside of their normal enrollment area. The rules do not prohibit legitimate school public relations, promotion or marketing. Rather, these rules prohibit capitalization upon a school's athletic program and/or a student's athletic interest, potential or proficiency as a factor in determining school attendance.

RECRUITING – Efforts to induce students to enroll in a member school because of the student's special talent or skill is considered recruiting. Recruiting of students or attempted recruiting of students for athletic purposes is prohibited, regardless of their residence.

No student athlete may receive, or be offered, any remuneration of any kind, or to receive or be offered any special inducement of any kind which is not made available to all applicants who enroll in the school or apply to the school.

- A. Special inducement shall include, but not be limited to the offer/acceptance of:
- Money or other valuable consideration such as free or reduced tuition during the regular year or summer school by anyone connected with the school.
 - Room, board or clothing or financial allotment for clothing.
 - Pay for work that is not performed or that is in excess of the amount regularly paid for such service.
 - Free transportation by any school-connected person.
 - Residence with any school-connected person.
 - Any privilege not afforded to non-athletes
 - Free or reduced rent for parents.
 - Payment of moving expenses of parents or assistance with the moving of parents.
 - Employment of parent(s) in order to entice the family to move to a certain community if someone connected with the school makes the offer.
 - Help in securing a college athletic scholarship.
- B. Inducing or attempting to induce or encourage any prospective student to attend any member school for the purpose of participating in athletics, even when special remuneration or inducement is not given is a violation.

No member school and no one acting on behalf of any member school shall give any speech or give any slide, film or tape presentation or distribute any written material which states or implies that a member school's athletic program is better

than the athletic program of any other member school or that it would be more advantageous for any prospective student-athlete to participate in athletics at that member school as opposed to any other school.

- C. Members schools shall be responsible for any violations committed by any person associated with the school, including principals, assistant principals, coaches, teachers, any other staff members or students, or any organization having any other staff members or students, or any organization having any connection to the school. The member schools shall be responsible for any violation committed by any person acting at the direction of the school.

This rule is not intended to prevent a member school from conducting academic recruitment programs or recruitment programs designed to attract students based upon the school's overall educational and extracurricular programs of the school and not be seen as a subterfuge for recruiting student for athletic purposes.

Student Eligibility Criteria- all contestants must be eligible under the rules of the Washington Interscholastic Activities Association (WIAA) to participate in an interscholastic contest.

This regulation does not restrict participation in practice or inter-squad scrimmage.

Age Limits- senior high school students shall be under 20 years old on September 1 for the fall sports season, on December 1 for the winter sports season, and on March 1 for the spring sports season. Junior high students shall not have reached their 16th birthday prior to June 1 of the previous school year. Middle school student(s) shall not have reached their 15th birthday prior to June 1 of the previous school year. Middle school is defined as a school with at least seventh and eighth grade levels.

Over-age student- A student who is ineligible to compete in middle or junior high level school athletics due to the age rule may participate in all sports in the senior high school of the school district provided both middle and junior high level and senior high school principals of the school district concerned approve the students participation. The school principal shall certify to the senior high principal the student's scholastic eligibility.

Student Member of a School- Students must be regular members of the school they represent in order to participate in an interscholastic athletic activity. Students are a "regular member" of a school if they are enrolled half-time or more, exclusive of interscholastic athletic activities.

In order for a student to participate in post season and state tournament playoffs, the student must be a member of a WIAA member school's athletic squad and have been included on a school's eligibility list for at least 50% of a regular season of the sport.

Scholarship- NOTE: It is the policy of the WIAA that individual schools may establish academic standards, which are higher than that of WIAA Handbook. **In order to maintain athletic eligibility during the current semester/trimester, the West Valley School District has established the following criteria: Each student shall maintain passing grades in all full-time subjects with a "C- or better" in all classes. Any student turning out for an activity must have successfully passed all classes with a D grade or higher in the preceding**

semester/trimester. Those who fail a course will be subject to the WIAA 3 week (grades 7/8) or 5 week (grades 9-12) suspension.

Any class taken one period daily for the duration of the trimester/semester shall be considered a full-time subject. On a case-by-case basis, students may be deemed to fall into an “exceptional circumstance” category. Principals may review requests of “exceptional circumstance” from parents or guardians to make a determination if the WIAA’s pass all rule may be waived. (This waiver will only apply down to the WIAA mandated requirement that a student must pass four (4) classes.) “Exceptional circumstances” may include age/maturity, unique personal, family, or educational factors, and special program needs.

Incomplete(s) may be made up for credit during the first five (5) weeks of the subsequent semester/trimester. The student shall be ineligible until the incomplete(s) are cleared.

ACADEMIC SUSPENSION PERIOD - A student who failed to make the grade requirements shall be placed on suspension. The student shall be ineligible during the suspension period. If, at the end of the suspension period, the student is passing in the minimum number of classes required above, the student may then be reinstated for interscholastic competition.

- A. The suspension period for high school students shall be from the end of the previous semester through the last Saturday of September in the fall or the first five (5) weeks of the succeeding semester/trimester.
- B. The suspension period for middle level students shall be from the end of the previous semester through the first three (3) weeks of the succeeding semester/trimester.
- C. Each student is eligible on Monday of the week following the end of the suspension period. Three or more teaching days shall constitute a week.

DEFINITION OF RESIDENCE AND FAMILY UNIT-RESIDENCE – The place where the family unit has established its home and/or the place where the student is habitually present and to which, when departing, the student intends to return.

FAMILY UNIT – The adult(s) who has/have had legal custody of the student for a period of at least one (1) year and with whom the student resides.

In order to be eligible to participate and/or represent a member school in an interscholastic contest, the student of the school must be residing within the boundaries of that school district and designated attendance area of the school and shall have attended a school of that school district continuously for a period of one year while residing with the family unit.

Unless otherwise provided, a student shall be eligible while attending a school in the school district in which that student resides with the family unit, and provided that the student has been continuously attending that member school, or a feeder school of that member school, for a period of one (1) year.

NOTE: Per WIAA rule (USE OF ELIGIBLE PARTICIPANT): The use of an ineligible participant shall result in forfeiture of contests in which that participant took part, except in situations in which it is determined that the participant/parent/guardian provided the school with false information which caused the school to declare the participant eligible. In such cases, the participant will be declared ineligible for

interscholastic competition for a period of one (1) year. **WVSD Note: If a student is determined by the West Valley School District and the YVIAA to have obtained a legal guardianship for the purpose of participating in athletics or co-curricular activities, the student will be ineligible to participate for one year.**

*PHYSICAL EXAMINATION – Prior to the first participation in interscholastic athletics in a middle level school, and prior to participation in a high school, a student shall undergo a medical examination and be approved for interscholastic athletic competition by a medical authority licensed to perform a physical examination.

Those licensed to perform physical examinations include a Medical Doctor (MD), Doctor of Osteopathy (DO), Certified Registered Nurse (ARNP), Physician’s Assistant (PR) and Naturopathic Physician.

To resume participation following an illness and/or injury serious enough to require medical care, a participating student must present to the school officials a physician’s written release.

The physical examination shall be valid for twenty-four (24) consecutive months unless otherwise limited by local school district policy.

For each subsequent twenty-four month period, the student shall furnish a statement or physical examination form signed by a medical authority licensed to perform a physical examination, which provides clearance for continued athletic participation.

SEASON LIMITATIONS – After entering or being eligible to enter the seventh grade, students shall have six (6) years of interscholastic eligibility. If the seventh or eighth grade is repeated, and such repetition is not based upon documented academic reasons, the repeated year shall count against the student(s) six (6) interscholastic competitive years.

After entering or being eligible to enter the ninth grade, a student shall have four (4) consecutive years of interscholastic eligibility.

For the purpose of this rule, consecutive shall mean starting on a designated date and continuing without delay or interruption for four (4) consecutive years. For the purpose of interrupting this rule, interscholastic eligibility shall mean that the opportunity to participate in sports exists for a maximum of six (6) years after entering or being eligible to enter the seventh grade and four (4) consecutive academic years after entering or being eligible to enter the ninth grade, and as long as the total years of eligibility (grades 7-12) does not exceed six (6) years. Application of this rule shall not be determined by years of participation in individual sports or sport seasons.

Students who do not attend school or who fail to exercise their opportunity to participate shall forfeit their eligibility during that period and shall not be provided any additional period of eligibility except as may be provided by the appeal process.

Students repeating the ninth grade at the middle level may participate in the senior high school of the same school district provided the principals of both schools involved agree. In such case, the middle level school principal shall provide certification of the student’s scholastic eligibility to the high school principal.

CONCURRENT SPORTS LIMITATIONS – A student shall not compete concurrently in more than one (1) interscholastic sport per season.

The exception shall be for students participating in high schools of 'B' classification with local administrators and school board determining eligible participation in more than one (1) interscholastic sport per season.

The exception shall be for the student who competes during an alternate season, qualifies for the state tournament, and is required to practice prior to competing in the state tournament. (Example: A student represented their school in fall tennis and qualified for the state tournament in the spring. During spring season this same student represented their school in track. Prior to the state tennis tournament, the student is required to have a minimum number of practices, during which time the student is also participating on the state track team. In the event that the student also qualifies for the state track meet, state event schedules will NOT be restructured in order for the student to compete in both state events.)

NON-SCHOOL PARTICIPATION – During any sport season after joining a school squad, students may not participate on college and/or professional teams in that sport.

Students are not to be given special treatment or privileges on a regular basis to enable them to participate in non-school athletic activities, such as reduced practice times, special workouts, late arrivals, or early dismissals.

Students shall not compete in the uniform of the school at non-school events.

AMATEUR STANDING – A student who represents a school in an interscholastic sport must be an amateur in that sport. An amateur student athlete is one who engages in athletics for the physical, mental, social, and educational benefits derived there from, and to whom athletics is an avocation and not a source of financial reward. In order to maintain amateur standing in those activities under WIAA jurisdiction, a student athlete may not:

- Accept merchandise or in-kind gifts of more than \$300 in fair market value during any one calendar year September 1 through August 31.
- Reduced membership fees or reduced user fees from an athletic club, recreation center, golf course, etc. do not count toward the \$300.00 limit.
- Accept cash awards
- Enter competition under a false name.
- Accept payment of expense allowances over the actual and necessary expenses for the athletic trip. (Note: entry fees are not considered a reimbursable expense.)
- Sign or have ever signed a contract to play professional athletes (whether for money consideration or not), play or have ever played on any professional team in any sport; receive or have ever received, directly or indirectly, a salary or any other form of financial assistance (including scholarships, educational grants-in-aid, or any of his/her expenses for reporting to or visiting a professional team) from a professional sports organization.

The student athlete may play as an amateur on any summer team not under the jurisdiction of a professional sports team or franchise.

Instructing, supervising, or officiating in, paid or non-paid, any organized youth sports program, recreation, playground or camp activities will not jeopardize amateur standing.

A student who forfeits amateur status may apply to the executive director for reinstatement in the interscholastic program after a waiting period of one year.

HARDSHIP- the WIAA district eligibility committee, the executive director and the WIAA executive board are given the authority to make specific exceptions to those student eligibility regulations contained in article 18 provided such expectations are based upon hardship conditions which are deemed to have contributed in a significant way to non-compliance with specific regulation (s) which may be appealed.

Any waiver of student eligibility regulations shall be based upon extenuating circumstances, beyond the student's, or where applicable, their parents or legal guardians control, which are deemed to have significantly influenced or contributed to the cause of the student's non-compliance to the eligibility regulation(s) involved. (The following criteria shall be used to determine if a hardship exists.)

- A. A hardship exists only when some unique circumstances concerning the students physical or emotional status exist and only when such circumstances are beyond the control of the student, or where acceptable the control of his/her family unit or legal guardian.
- B. The circumstances must be totally different from those which exist for the majority or even a small minority of students (e.g., usual maturation problems or family situations which do not cause severe and abnormal emotional problems, academic or athletic deficiencies in a schools curriculum or extracurricular activities do not constitute a hardship).
- C. There must be no reason to believe that the decision and/or the execution of the decision concerning the student's academic status was for athletic purposes.
- D. The burden of providing evidence that a hardship exists shall be borne by the student.
- E. There shall be a direct, casual relationship between the alleged hardship and the student's inability to meet the specific eligibility rule(s).

Exceptions to student eligibility regulations based upon a hardship and the student's inability to meet the specific eligibility rule(s).

- A. Loss of eligibility in itself or an injury in itself, which prevents the student from exercising an opportunity to participate, are not to be considered hardships. In addition, attending a school which does not offer interscholastic activities is not to be considered a hardship, nor shall it justify extending eligibility beyond the four (4) consecutive year period allowed. To grant additional eligibility based upon a hardship, a student must demonstrate that normal progression towards graduation has been interrupted as a result of one of the following: (1) a long-confining illness; (2) an injury, or; (3) a family hardship.
- B. A hardship exception shall not be granted if there is sufficient evidence to make it reasonable to believe that the non-compliance to the eligibility rule in question was

motivated by the student's, parent's or school's effort to gain a desired athletic outcome or to intentionally circumvent a rule, or

- C. A hardship exception shall not be granted if the student has had the opportunity for six (6) years after entering or being eligible to enter seventh grade or four (4) consecutive years after entering or being eligible to enter the ninth grade to participate in interscholastic activities.

RUNNING START ELIGIBILITY STANDARDS – Running Start students who participate in club sport programs at the post-secondary institution they attend forfeit their interscholastic eligibility for the corresponding WIAA-sanctioned sport.

Member of the School – The Running Start student must be included on the schools P-223 count submitted to SPI. The school of eligibility must be the “School of Record” for the Running Start student and include the same transcript records as all other students.

Regular Attendance – The Running Start student must comply with the WIAA minimum eligibility standards of 85% attendance in scheduled classes and comply with local school attendance eligibility policies required of all other students.

Scholarship and Previous Semester – The Running Start student shall have passed and maintained passing grades in all full-time subjects as evidenced by college credits, earning at least two (2) graduation credits (or equivalent), monitored at any time AND at a minimum the previous semester grading recorded on the official transcript. The School Eligibility Standards must be consistently applied to ALL students. School Board (or schools so authorized by school district policy) adopted standards greater than WIAA standards must be applied.

All Other Eligibility Standards – The Running Start student shall maintain passing grades during the previous and current high school semester in the equivalent of full-time high school classes. For the purposes of this rule, one (1) five (5) credit class in a college quarter shall be equal to one (1) high school credit and one (1) three (3) credit class in a college semester shall also be equal to one (1) high school credit.

RCW 28A.300.285 Findings -- 2002 c 207: "The legislature declares that a safe and civil environment in school is necessary for students to learn and achieve high academic standards. The legislature finds that harassment, intimidation, or bullying, like other disruptive or violent behavior, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment. Furthermore, the legislature finds that students learn by example. The legislature commends school administrators, faculty, staff, and volunteers for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying." [2002 c 207 § 1.]

NATIONAL FEDERATION OF HIGH SCHOOLS HAZING RESOLUTION

The National Federation of High Schools (NFHS) defines hazing as any humiliating or dangerous activity expected of a student to belong to a group, regardless of their willingness to participate.

Whereas, the mission of the NFHS includes development of "good citizens through interscholastic activities" and

Whereas, the NFHS attempts to "enhance the educational experiences of high school students and reduce the risks of their participation," in such activities and

Whereas, the NFHS Citizenship Committee, in partnership with the school/community, "will provide life-long learning opportunities for participants to become citizens who provide positive contributions to their schools, workplaces and society," and

Whereas, a major goal of the NFHS Citizenship Committee is "to foster a climate at the local, state and national levels to promote respect for self, others and environment." and

Whereas, participants in school activities are uniquely vulnerable to hazing, and

Whereas, hazing obstructs the development of good citizens, escalates the risks of participation, negates positive contributions, and destroys respect for self, others and environment,

Therefore, be it resolved by the NFHS that significant steps shall be taken to increase the awareness and prevention of hazing.

NATIONAL FEDERATION OF HIGH SCHOOLS DEFINITION OF HAZING

The National Federation defines hazing as any humiliating or dangerous activity expected of a student to belong to a group, regardless of their willingness to participate.

Some practices associated with high school hazing carry the potential for serious bodily harm or even death. These practices may include: tattooing, piercing, head-shaving, branding, sleep deprivation, physical punishment (paddling and "red-bellying"), "kidnapping," consuming unreasonable/unacceptable foods or beverages, being forced to come to school in face/body paint and nightwear, being deprived of personal hygiene and/or inappropriate sexual behavior.

Coerced sexual activity, in addition to being classified as sexual assault and/or rape, is another form of hazing. Such activity puts victims at risk for injuries, sexually transmitted diseases, and pregnancy.

Alcohol abuse is another significant factor in hazing incidents that feature forced consumption of large amounts of alcohol.

- **Connection between bullying and hazing**

In many respects, hazing is similar to bullying, but hazing has a tendency to be an institutionalized form of harassment/intimidation centering on initiation rights connected to certain school clubs and activities. Hazing can be seen as an organized form of bullying. One difference between these behaviors is that bullying typically attempts to exclude a person from the bully's activities while hazing is often a condition of acceptance or initiation into a group.

While bullying may begin in early elementary school, hazing generally does not occur until children are older. As with bullying, however, hazing may involve a ringleader and bystanders who do nothing to stop the activity.

In order to prevent both bullying and hazing, it is important to begin when children are young. Parents, families and schools can explain what and how harmful bullying is to the victim, classroom, school, and community at large. Bullying and hazing should always be seen in the context of respect for self, respect for others.

Coaches/Advisors have direct, regular contact with athletes and other school activity participants. They should play a critical role in preventing and responding to hazing. A coach's influence and supervision extends beyond the school setting to buses, hotels, camps, and many other places. They have great influence in setting a climate and culture of respect (for self and others) within their sport or activity. In addition, the following can aid you in setting a climate of respect and civility that deters hazing.

- Modeling respect
- Giving information
- Responding to behaviors that may lead to hazing or indicate that hazing has occurred
- Enforcing rules and policies about hazing
- Involving students and parents in preventing hazing
- Establishing healthier and safer ways to welcome new group members

Consider the selection of team captains or group leaders carefully. Student leaders can positively or negatively impact other student activity participants. Choose students who will have a positive influence and don't leave it to chance (i.e., a vote by team or group members). Make sure that respect for self and respect for others is part of the criteria you use when you choose team captains or group leaders.

Encourage students to engage in positive team building activities on your team. If you have the resources, consider sending them with other team or group leaders to workshops that teach them how to conduct health and safe team building activities.

Promote and establish healthy and safe ways to welcome new group members. Provide some positive team building activities at the beginning of a new season as a way to develop group cohesion and unity. Community service projects are a great way to build team unity, to "give back to your community" and build civic engagement among your activity participants.

Thank You!

The West Valley School District would like to thank those community members who donated untold hours during 2002-2003, without whose valuable input, assistance and advice the West Valley Co-curricular Handbook could not have happened. Amendments were made to the document in August 2003, 2004, 2006, 2009, 2010 by the West Valley School Board at a regularly scheduled meeting. Clarifications/updates are made yearly by the District AD's, subject to board approval.
