

SNOW LINE 972-6002

For school cancelations, alternate snow stops or delays, please do not call the transportation office, instead please access our district website or call the snow line at **972-6002**. The snow line is updated daily by 5:30 AM.

Any time the District delays the start of school or believes pre-identified stops to be hazardous for buses, your child(ren) are requested to go the “**alternate bus stop**”. Delay of start time and alternate bus stops will be broadcast over the snow information line at 972-6002 or on the school district web page. We will also do our best to contact local radio and television stations in the morning. Your best source for information will be the snow line or the District Website.

IF ALTERNATE STOPS ARE CALLED DUE TO INCLEMENT WEATHER, ALTERNATE STOPS WILL RUN BOTH IN THE AM AND PM.

You can check the Transportation tab, under Departments on the district website to see if your child has an alternate snow stop.

THE INFORMATION BELOW SHOWS WHERE YOU CAN FIND DAILY UPDATES

DISTRICT SNOW-INFO LINE: 972-6002 (earliest information available)
